- 2025** - Present - Associate Professor at University of Pernambuco - UPE
- 2026** - Present - Section Editor (Oral and Maxillofacial Surgery) of the Brazilian Dental Science Journal

He is a specialist in Oral and Maxillofacial Surgery, having completed a hospital-based residency program at Hospital da Restauração, University of Pernambuco (UPE), Brazil. He currently serves as a faculty member in Oral and Maxillofacial Surgery, with solid experience in both undergraduate and graduate teaching, actively contributing to the training of dental professionals.

He has an established record of scientific production, with publications of clinical and research articles in peer-reviewed journals. He serves as Section Editor in Oral and Maxillofacial Surgery for the Brazilian Dental Science Journal, playing an active role in the critical appraisal and dissemination of scientific knowledge.

His academic and clinical work is focused on oral surgery, maxillofacial trauma, odontogenic infections, and surgical planning, integrating evidence-based practice with clinical expertise. In addition to his academic responsibilities, he maintains active clinical practice and is regularly engaged in continuing education and professional development activities in Brazil.
