

CURRICULUM VITAE

Matheus Sampaio-Oliveira, Postdoctoral fellow, PhD

Department of Dentistry and Oral Health, Section for Oral Radiology and Endodontics, Aarhus University, Denmark

[ORCID: 0000-0002-0414-6395](https://orcid.org/0000-0002-0414-6395)

- 2021** – Licentiate in Dentistry (DDS, Federal University of Juiz de Fora – UFJF)
- 2023** – Master Degree in Oral Radiology (MS, University of Campinas – UNICAMP)
- 2024** – Guest PhD researcher (Aarhus University, Denmark)
- 2026** – Doctorate in Oral Radiology (PhD, University of Campinas – UNICAMP)
- 2026** – present – Postdoctoral fellow (Aarhus University, Denmark)

He has over ten years of experience in Oral Radiology, with expertise in dental imaging modalities, digital imaging, artefact analysis, image quality assessment, and diagnostic performance. His research topics include digital intraoral and panoramic radiography, cone-beam computed tomography (CBCT), and the newly introduced dental-dedicated MRI (ddMRI), with a strong focus on methodological innovation and clinical relevance. He has authored peer-reviewed publications, serves as a reviewer, and has experience in research supervision and teaching at undergraduate and postgraduate levels, particularly in radiographic interpretation and diagnostic reasoning.

He has established international academic collaborations with leading institutions, including Aarhus University (Denmark), Seoul National University (South Korea), and the University of Campinas (Brazil), and is currently a postdoctoral fellow at Aarhus University.
